

A tall, slender, grey stone monument stands against a clear blue sky with light clouds. Below the monument, a dense forest of trees is in full autumn foliage, displaying vibrant shades of green, yellow, orange, and red. The scene is captured from a low angle, looking up at the monument and across the colorful trees.

Bennington Holistic Healing Practitioners

About BennHHP

We are a consortium of holistic practitioners who serve the Bennington area. Our purpose is to raise public awareness of and access to the services and practitioners in our community, and to promote our complimentary practices.

As attitudes and beliefs about complementary medicine have shifted, more and more medical doctors are recommending mind-body practices to help their clients heal in a more natural way.

We are creating a referral network for both the community and practitioners by collaboratively gathering and sharing information about these practices. Our goal is to give the public the opportunity to find the health services that best suit their needs.

Visit our website to explore:

- *A list of our practitioner members organized by the services they offer*
- *Professional bios of practitioners including educational backgrounds, pricing, and contact information*
- *How to become part of our group*
- *& more!*
